1. Purpose Statement

The main purpose of the Affordable Housing – HAF Affordable Housing Development Grant Program is to incentivize, by way of grants, the development of new, affordable housing developments and addressing the missing middle over the CMHC, HAF funding period (2024 – 2027). The Affordable Housing – HAF Affordable Housing Development Grant Program includes a per-door incentive grant for affordable housing developers, being non-profit corporations, or for-profit companies to develop affordable housing types, and to be disbursed in phases upon the successful completion of the building's foundation.

2. Application

This Policy applies to non-profit corporations as well as for profit corporations proposing to develop affordable housing within Sussex. In Addition, this Policy applies to new developments that create additional dwelling units. The supply of new dwelling units may be through new construction, or the renovation, re-use, and re-purposing of existing buildings.

3. Definitions

Affordable housing: means low-cost housing oriented toward low income or non-income generating residents that is operated by a non-profit corporation.

Affordable unit: means a residential dwelling unit that is rented at 80% or less of the Median Market Rent (MMR), as defined by the latest CMHC annual Rental Market Report. An affordable unit may also include a dwelling unit that is otherwise deemed affordable through another provincial or CMHC program.

Missing Middle Housing: a transformative concept that highlights the need for diverse, affordable housing choices in sustainable, walkable neighborhoods. The Missing Middle Housing types provide diverse housing options, such as duplexes, fourplexes, cottage courts, and multiplexes. These house-scale buildings fit seamlessly into existing residential neighborhoods and support walkability, locally-serving retail and active transportation options. They provide solutions along a spectrum of affordability to address the mismatch between the available Sussex housing stock and shifting demographics in Canada combined with the growing demand for walkability.
