Signature	*Date of Revision*	PAGE 1/1
	JANUARY 19, 2009	

The following are terms and conditions for the acceptance of septage from contractors into the sewer system:

1) the Town of Sussex will establish the point of entry of septage into its sewer system;

2) the dumping of sewerage by a sewerage hauling contractor will only occur in the presence of a person designated to supervise the acceptance of this sewerage;

3) the Town shall supply and maintain a bar screen to be placed into the point of entry of the Town's sewer system to ensure that no deleterious materials enter the system;

4) the contractor will ensure that his septage is mixed sufficiently to ensure proper flow into the Town's sewer system;

5) the Town's representative is to estimate the volume of sewerage contained in each load and that the Town of Sussex will bill the contractor as outlined in Schedule "A" of a By-Law to Regulate Water and Wastewater Systems in the Town of Sussex;

6) the Town will ensure that access to the designated dump site is maintained;

7) the contractor will contact the Superintendent of Works, or his designate, each time, for a confirmation of a meeting time for disposal;

8) any accidental spills of sewage at the dumping site are to be cleaned up to the satisfaction of the Town by the contractor;

9) any shipments of waste containing any type of petroleum products or chemicals harmful to the Town's sewerage treatment plant will be rejected; and

10) any sewerage accepted by the Town may be sampled and sent to the Environment Lab for analysis. Costs for these tests and shipping are to be borne by the contractor.
