

**A BY-LAW TO AMEND  
A BY-LAW TO REGULATE WATER, SANITARY AND STORM SEWER  
SYSTEMS, BY-LAW #1203-10**

**BY-LAW #1203-10-04**

- 1 The following subsection 3(ii) of Section III Water Supply and Distribution System, shall be *deleted* in its entirety from By-law #1203-10:
- (ii) It shall be mandatory, for any new commercial, agricultural, industrial, institutional or residential building or new use or uses in an existing building, to which water is connected, through the municipal distribution system, to have a water meter complete with an external remote readout, or device prescribed by this Municipality, installed prior to activation or delivery of any water to the premises. The water meter size shall be the same size, as the diameter of the water service connection.
- 2 The following subsection 3(ii) of Section III Water Supply and Distribution System shall be *added* it its entirety to By-law #1203-10:
- (ii) It shall be mandatory, for any new commercial, agricultural, industrial, institutional or residential building or new use or uses in an existing building, to which water is connected, through the municipal distribution system, to have a water meter complete with an external remote readout, or device prescribed by this Municipality, installed prior to activation or delivery of any water to the premises. The water meter size shall be the same size, as the diameter of the water service connection, or as approved by the Works Officer.
